PROFESSIONAL EXPERIENCE

OPENTEXT

Cloud Applications Consultant Intern

Makati

Dec 2025 – June 2026

- Developed and maintained 11 EDI data transformation mappings using conditional logic to integrate trading-partner data with SAP ERP systems.
- Debugged and resolved SAP IDoc and EDI transformation errors by tracing field mappings, validating outputs, and performing root-cause analysis against client requirements.
- Maintained technical documentation covering mapping logic, test results, configuration changes, deployments, and connectivity methods including SFTP, FTP, HTTP, and AS2.

PROJECTS

KORA - AI COMPANY KNOWLEDGE & OPERATIONS RAG ASSISTANT

- Built a full-stack RAG knowledge assistant using Next.js, Supabase, pgvector, Gemini, and Notion OAuth, enabling users to retrieve company information with cited source references.
- Implemented a RAG pipeline that synchronizes Notion pages, generates embeddings, retrieves relevant context, and displays cited source sections for answer verification.
- Designed multi-tenant administration workflows covering organization management, member roles, knowledge collections, AI usage limits, feedback tracking, and documentation gap detection.

SIFT - AI POWERED CUSTOMER SUPPORT TRIAGE PLATFORM

- Built a full-stack customer support platform that connects Gmail inboxes, imports customer emails, and converts conversations into organized support tickets.
- Implemented Gemini-powered triage that classified tickets by urgency, category, and sentiment while generating suggested replies, with human approval required before Gmail drafts were created.
- Developed multi-tenant role-based access for owners, admins, and agents with team invitations, ticket assignment, response templates, audit logs, and operational dashboards.

JOBFIT AI - ATS RESUME ANALYZER

- Built an AI-powered resume analysis platform that parses PDF resumes, evaluates them against job descriptions, and generates structured ATS scoring and recommendations.
- Integrated PDF.js, cloud storage, Zustand, and persistent analysis history to support document processing and repeat resume evaluations.

EDUCATION

National University – Fairview

BS Information Technology - Specialization in Mobile and Internet Technology

Quezon City

2022-2026

Dean's Lister: 2022, 2024

Best in NUvation Award: IoT-Based Rice Vending Machine

SKILLS

Languages: TypeScript, JavaScript, Python, SQL

Frontend: React.js, Next.js, Tailwind, CSS, Vite

Backend: Node.js, Express.js, FastAPI, REST APIs, OAuth, JWT

Database: PostgreSQL, Supabase

AI & Automation: OpenAI, Claude, Gemini API, n8n

DevOps & Cloud: Git, GitHub, Docker, Vercel, Render, Google Cloud Platform

CERTIFICATIONS

- AI in Connected Products (AIOT) - 2025
- IoT Foundations: Operating Systems Fundamentals - 2025
- Getting Started with Professional Scrum - 2025
